## Notice Concerning the Promotion of Green Purchasing

In order to further strengthen our environmental initiatives, Kyushu Financial Group, Inc. ("KFG") have established the Green Purchasing Policy as stated below. KFG and the group aim to continue working together to realize a sustainable local community through the practice of procuring environmentally-friendly products and services.

### 1. Green Purchasing Policy

1. As part of the practice of environmentally-friendly management, KFG and the group contribute to the creation of sustainable local communities by promoting the purchase of products and services that cause less harm to the environment.
2. Basic Procedure
  - 1) In addition to the cost and quality, KFG and the group consider the following points in order to minimize the impact on the environment and strive to purchase products and materials are:
    - Durable for long time use
    - Made of many recycled materials and reused parts
    - Recyclable and able to reuse
    - Safely disposable
    - Expected to reduce total cost including the disposal
  - 2) Carefully consider the necessity and make a minimum purchase
  - 3) Use properly for a long period of time
